

# IR DRYER - B2

**X2  
TWICE THE SPEED**

**B2**

## DRYER with new " IRRADIO " system and Two Belts

**X2 NEW VERSION**

### Description

B2 is a small drying oven, built with light materials, equipped with wheels for easy movement, epoxy coated. The tunnel is insulated and heated by means of radiant ceramic panels, with thermoventilation ducted to a rapid drying and hot air recycling block. This particular design makes the oven really efficient and saves a lot of power. The dryer is equipped with a thermocouple digital control panel, where you will be able to set its temperature.

### Technical specifications

Tunnel Length :	2000 mm
Tunnel Height :	200 mm
<b>Belts :</b>	<b>2</b>
Large belt :	650 mm
Belt Speed :	adjustable
Belt :	glass teflon
Max Temper.:	180°
Supply :	Electrical
Power :	380 / 220 V max 10.5kw
Usable Size :	3300 x 650 mm
Actual Size :	3450 x 1080 x 1600 h
Optional	
Tunnel Length :	3000/4000/6000 mm
Large belt :	650/1000/1300 mm
